### A. NOTES TO THE UNAUDITED FINANCIAL REPORT FOR THE FIRST QUARTER ENDED 31 MARCH 2017

#### A1. Basis of accounting and changes in accounting policies

#### a) Basis of accounting

The consolidated interim financial statements of K-Star Sports Limited (the "Company" or "K-Star") and its subsidiary companies ("the Group") for the quarter ended 31 March 2017 are unaudited and have been prepared in accordance with Singapore Financial Reporting Standards ("FRS") and Appendix 9B of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Securities").

The unaudited consolidated interim financial statements should be read in conjunction with the audited consolidated financial statements of the Group for the financial year ended ("FYE") 31 December 2016. These explanatory notes attached to the interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the FYE 31 December 2016.

In the current financial year, the Company has adopted all the new or amended FRS and Interpretations of FRS ("INT FRS") that are relevant to its operations and effective for the current financial year ending 31 December 2017.

The adoption of these new or revised FRS and INT FRS did not result in substantial changes to the Group's and the Company's accounting policies and had no material effect on the amounts reported for the current or prior financial years.

At the date of authorisation of this report, the following FRS relevant to the Group were issued but not yet effective for the current financial period under review:

Effective date

Consideration

The Directors do not anticipate that the adoption of these FRS (including sequential amendments) and INT FRS, where relevant to the Group, in future periods will have a material impact on the financial statements of the Group in the period of their initial adoption.

#### Changes in accounting policies

The accounting policies and presentation adopted by the Group for the interim consolidated financial statements are consistent with those adopted for the Group's audited consolidated financial statements for the FYE 31 December 2016.

#### b) Basis of consolidation

The consolidated interim financial statements of the Group have been prepared using the historical cost method similar to the "pooling-of-interest" as acquisition of subsidiary is accounted for as reconstructions of businesses. Under the historical cost method, the acquired assets and liabilities are recorded at their existing carrying amounts.

The consolidated interim financial statements include the results of operations, and the assets and liabilities of the pooled enterprises as part of the Group for the whole of the current period.

Other than accounting of subsidiary company using the historical cost method as disclosed above, the results of the subsidiary companies acquired during the financial year, if any, are included in the consolidated statement of comprehensive income from the effective date in which control is transferred to the Group.

Subsequent acquisitions of subsidiary companies, if any, are accounted for using the purchase method. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the acquisition. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any minority interest.

Where accounting policies of a subsidiary do not conform with those of the Company, adjustments are made on consolidation when the amounts involved are considered significant to the Group.

All inter-company balances and significant inter-company transactions and resulting unrealised profits or losses are eliminated on consolidation and the consolidated financial statements reflect external transactions and balances only. The results of subsidiary companies acquired or disposed of during the financial year are included or excluded from the consolidated statement of comprehensive income from the effective date in which control is transferred to the Group.

#### c) Functional currency and translation to presentation currency

(i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The financial statements are presented in Renminbi ("RMB"), which is also the functional currency of the Group.

#### (ii) Transactions and balances

Foreign currency transactions are measured and recorded in the functional currency using the exchange rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the closing rates ruling at the respective statement of financial position dates. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the date of transactions. Non-monetary items measured at fair values in foreign currencies are translated using the exchange rates when the fair values are determined.

#### (iii) Group companies

The results and financial positions of all entities that have functional currencies different from the presentation currency are translated into the presentation currency as follows:

- (1) Assets and liabilities are translated at the closing exchange rate at the end of reporting period;
- (2) Income and expenses are translated at average exchange rates (unless the average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and
- (3) All resulting currency translation differences are recognised in the currency translation reserve in equity.

#### A2. Audit report of the Group's preceding annual financial statements

The Group's audited consolidated financial statements for the FYE 31 December 2016 were not subject to any audit qualification.

#### A3. Seasonal or cyclical factors

There were no seasonal or cyclical factors which will materially affect the Group during the quarter under review.

#### A4. Unusual items

There were no unusual items affecting assets, liabilities, equity, net income or cash flows of the Group during the current financial quarter and financial year-to-date.

#### A5. Material changes in estimates

There were no changes in estimates of amounts reported in prior financial year that have a material effect on the results of the current quarter under review.

#### A6. Changes in share capital and debts

Save as disclosed below, there were no issuance, cancellations, repurchase, resale and repayment of debt and equity securities, share buy backs, share cancellation, shares held as treasury shares and resale of treasury shares for the current financial period to date.

Details of the movements in the Company's shares since the previous FYE 31 December 2016 up to the current financial year to date are as follows:

	No. of shares issued	Issued and pai capit	•

The sales and distribution expenses were recorded lower by approximately 91.28% as compared to the 4Q2016. This was mainly due to the sales rebate of RMB 62.47 million were extended to distributors in the preceding quarter.

In view of the above, the current quarter's losses were narrowed by approximately 83.96% as compared to the 4Q2016.

#### B3. Prospects for the financial year ending 31 December 2017

The China economy has slowed down with declining in manufacturing, falling exports, turbulent capital market, rising debt level and eroding foreign reserves. The gross domestic product ("GDP") growth rate has seen fell from 6.9% in 2015 to 6.7% in 2016. It is envisaged that a challenging time ahead for China economy that the China Government has lower its economic growth target to approximately 6.5% as set in the 13<sup>th</sup> Five-Year Plan. However, the unveiled 13<sup>th</sup> Five-Year Plan also sets to promote "Made in China 2025" which encourages the industry to reform its manufacturing practices into high-end manufacturing and encouraging expansion into the international market. Rising participation in sport activities supported by Government policy and advancement of e-commerce are in place to drive growth and recovery of the overall sporting goods industry.

Looking forward, the China sports footwear market will remain challenging after years of downturn. Domestic brands underwent a prolong restructuring arising from overly expansion which led to high level of excessive inventory. The oversupply situation has generally stabilised and yet struggling to see a recovery in sales growth.

International sportswear brands are aggressively expanding their business efforts in the lower tier cities, causing domestic sportswear brands to lose market share due to weaker brand recognition and lack of product differentiation. With rising disposable income and increasing participation in sports, consumers in lower tier cities are seeking more value in brand identity and product quality.

The Group remains cautious on the uncertainty of the economic recovery and perceived that the competition within China's sporting goods industry will continue to intensify. The Board of Directors of K-Star ("Board") envisages that the Group's prospects for the financial year ending 31 December 2017 would be favourable. Given the overall backdrop in consumer sentiment and intense competition both from foreign and domestic brands as discussed, the Group sees limited upside momentum on the sales growth and remains optimistic on the long term sustainability and potential opportunity given the Group's continuous effort and investment in brand recognition as well as product innovation.
