A. NOTES TO THE UNAUDITED FINANCIAL REPORT FOR THE SECOND QUARTER ENDED 30 JUNE 2016

A1. Basis of accounting and changes in accounting policies

a) Basis of accounting

The consolidated interim financial statements of K-Star Sports Limited (the "Company" or "K-Star") and its subsidiary companies ("the Group") for the quarter ended 30 June 2016 are unaudited and have been prepared in accordance with Singapore Financial Reporting Standards ("FRS") and Appendix 9B of the Bursa Malaysia Securities Berhad ("Bursa Securities") Main Market Listing Requirements.

The unaudited consolidated interim financial statements should be read in conjunction with the audited consolidated financial statements of the Group for the financial year ended ("FYE") 31 December 2015. These explanatory notes attached to the interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the FYE 31 December 2015.

In the current financial year, the Company has adopted all the new or amended FRS and Interpretations of FRS ("INT FRS") that are relevant to its operations and effective for the current financial year ending 31 December 2016.

The adoption of these new or revised FRS and INT FRS did not result in substantial changes to the Group's and the Company's accounting policies and had no material effect on the amounts reported for the current or prior financial years.

At the date of authorisation of this report, the following FRS were issued but not yet effective for the current financial year under review:

Effortivo data

		Annual periods commencing on
No.	Title	or after
FRS 115	Revenue from Contracts with Customers Illustrative Examples	1 January 2018
FRS 110, FRS	Amendments to FRS 110 and FRS 28: Sale or	To be
28	Contribution of Assets between an Investor and its Associate or Joint Venture	determined
FRS 109	Financial Instruments Illustrative Examples Implementation Guidance Amendments to Guidance on Other Standards	1 January 2018
FRS 7	Amendments to FRS 7: Disclosure Initiative	1 January 2017
FRS 12	Recognition of Deferred Tax Assets for Unrealised Losses	1 January 2017

The Directors do not anticipate that the adoption of this FRS (including sequential amendments) and INT FRS, where relevant to the Company, in future periods will have a material impact on the financial statements of the Company in the period of their initial adoption.

Changes in accounting policies

The accounting policies and presentation adopted by the Group for the interim financial statements are consistent with those adopted for the Group's audited consolidated financial statements for the FYE 31 December 2015.

b) Basis of consolidation

The consolidated financial statements of the Group have been prepared using the historical cost method similar to the "pooling-of-interest" as acquisition of subsidiary is accounted for as reconstructions of businesses. Under the historical cost method, the acquired assets and liabilities are recorded at their existing carrying amounts.

The consolidated financial statements include the results of operations, and the assets and liabilities of the pooled enterprises as part of the Group for the whole of the current period.

Other than accounting of subsidiary company using the historical cost method as disclosed above, the results of the subsidiary companies acquired during the financial year, if any, are included in the consolidated statement of comprehensive income from the effective date in which control is transferred to the Group.

Subsequent acquisitions of subsidiary companies, if any, are accounted for using the purchase method. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the acquisition. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any minority interest.

Where accounting policies of a subsidiary do not conform with those of the Company, adjustments are made on consolidation when the amounts involved are considered significant to the Group.

All inter-company balances and significant inter-company transactions and resulting unrealised profits or losses are eliminated on consolidation and the consolidated financial statements reflect external transactions and balances only. The results of subsidiary companies acquired or disposed of during the financial year are included or excluded from the consolidated statement of comprehensive income from the effective date in which control is transferred to the Group.

c) Functional currency and translation to presentation currency

(i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The financial statements are presented in Renminbi ("RMB"), which is also the functional currency of the Group.

(ii) Transactions and balances

Foreign currency transactions are measured and recorded in the functional currency using the exchange rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the closing rates ruling at the respective statement of financial position dates. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the date of transactions. Non-monetary items measured at fair values in foreign currencies are translated using the exchange rates when the fair values are determined.

(iii) Group companies

The results and financial positions of all entities that have functional currencies different from the presentation currency are translated into the presentation currency as follows:

- (1) Assets and liabilities are translated at the closing exchange rate at the end of reporting period;
- (2) Income and expenses are translated at average exchange rates (unless the average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and
- (3) All resulting currency translation differences are recognised in the currency translation reserve in equity.

B3. Prospects for the financial year ending 31 December 2016

The sports footwear and apparel market in China has reached a certain level of maturity and has entered a phase of stabilised growth after a period of rapid expansion with double digit growth rate from 2008 to 2010. Thereafter, it had undergone a prolonged downturn since 2011 due to intense industry rivalry resulting in oversupply of sports apparel and footwear in the market. Accordingly, many distributors and retailers have to reduce the inventories and relieve the dilemma through shutting down shops, industrial promotion and channel transformation. In addition, consistent high level of inflationary pressure has also affected the consumer sentiment, hindering the overall market growth as well as the Group's performance.

However, the Group remains optimistic on the long term potential and sustainability of the sports industry in China witnessed by a combination of government's support which include promotion of public sporting programmes, hosting of international events and increasing media exposure.

The Group remains cautious on the uncertainty of the economic recovery and perceived that the competition within China's sporting goods industry will continue to intensify. It is envisaged that the oversupply situation in the sportswear industry in China will ease over time, however challenges on offline channels from online channels is inevitable. While the distributors are still focusing on rationalising its retail channel and improving profitability, the Group as the brand owner will undertake necessary measures by extending mix of incentives to support and ensure the sustainability of the distributors' business amid the current market environment will continue to be faced with numerous challenges.

The Board of Directors of K-Star ("Board") envisages that the Group's prospects for the financial year ending 31 December 2016 would be challenging in view of the China's retailing growth slowdown in the short and medium term perspective.
